

NOTICE OF AVAILABILITY

The U.S. Department of Energy (DOE) has issued a Finding of No Significant Impact (FONSI) based on completion of an Environmental Assessment (EA) that analyzed the potential environmental impacts associated with the:

**Commercial Scale Integrated Demonstration BioEnergy Center
Vero Beach, Florida
DOE/EA 1773**

DOE's Golden Field Office has determined that providing cost-shared funding under the American Recovery and Reinvestment Act of 2009 to support final design, construction and initial operation of the INEOS New Planet BioEnergy, LLC commercial scale integrated demonstration bioenergy center in Vero Beach, Florida would not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act (NEPA). The FONSI and EA are available for review on the DOE Golden Field Office website:
